

## Jinzhong China-Germany Forum and Business Conference

### Intro to the district of Jinzhong

Jinzhong is a city in the east of the Chinese province of Shanxi with 3.35 million inhabitants (end of 2016) on an area of 16,387 km<sup>2</sup>. It is about 500 km south-west from the capital Beijing. The region, historically dominated by coal and heavy industries, is currently undergoing economic restructuring. The traditional industries will be replaced by modern industrial manufacturing and technology innovation.

The new economic development strategy includes a variety of topics such as modern industrial manufacturing plants, environmental and energy saving equipment, new materials, biology, renewable energy, modern opencast mining, agricultural technology, electronic mobility, textile, modern services and eco-tourism, information technology, innovative tech startups, etc.

Under the above planning mandate, the Shanxi Transformation and Comprehensive Reform Zone District Jinzhong (STCRZDJ) emerged. Following the motto "innovation-driven structural reform, open investment environment and green development", Jinzhong would like to introduce the World to Shanxi and find partnerships with potential investors, manufacturers and corporations at home and abroad.

Open dialogue is the start to any successful global cooperation, for this reason the Shanxi Transformation and Comprehensive Reform Zone District Jinzhong (STCRZDJ) is organizing a two-days event in Jinzhong in cooperation with Combo Business Services Germany. In addition to company tours, a panel discussion on current topics in Germany and China, lectures and networking, a cultural and varied supporting program will be held. During this invitation only visit, foreign companies will have the opportunity to learn more about partnership and investment opportunities with local companies focused on modern industrial plants and manufacturing, engineering, hydraulics, steel industry and logistics etc..
